PROTO

The Proto Epic

The Proto Epic is a fully life-size holographic communications platform that lets viewers see, hear and interact with others who are literally ‘beamed in” from anywhere in the world both live and pre-recorded. The Epic delivers a truly real-life, real-size, real-time presence.

The future is volumetric.

High Density, multitouch and crystal clear.

What is Proto?

It's the first holographic technology to deliver a truly lifelike, lifesize, realtime or scheduled, volumetric digital experiences.

It brings the magic and power of the digital world into reality.

Over 100 companies are already part of our communication paradigm shift. Proto is the new way to connect.

When people stand before a Proto device, they feel like they have the actual person or object right in front of them. It creates memories that are a level up from standard flat video.

Time for you to actually **be**(am) **there**.

BEAM yourself & your content around the planet to one or many devices simultaneously.

The Epic & M devices can be networked together to beam anyone or anything — CEO, politician, entertainer, family member, NFT or object — into an unlimited number of devices.

Where to use PROTO

Prepare for a paradigm shift in company trainings, customer support digital signage, amongst so many other new ways to connect.

Retail

Showcase products and interact with clients like never before.

Entertainment & Live Events

Holographic experiences, sale points, pop ups and activations.

Healthcare

Add real value to patient & doctor experiences.

Transportation

Bring wonder to travelers.

Conferences & Business

Save on travel, just beam there.

Hospitality

Impress your guests and create memorable moments.
